

## Get With The Guidelines® Research Projects (In-Process)

Module	Project Number	Project Title
AFib	25AF003	Early Adoption and Safety of Pulsed Field Ablation: Insights from the Get with The Guidelines – Atrial Fibrillation
AFib	19AF003	Comparison of Outcomes Among Patients Receiving Watchman LAAO versus Antiplatelet Therapy: A Report from the GWTG-AFIB Registry
AFib	24AF004	Risk Over A Risk Score - Re-Evaluating Anticoagulation Prescription Patterns In Patients Hospitalized with Atrial Fibrillation With Revised Guidelines: The Get with the Guidelines- Atrial Fibrillation (GTWG-AFIB) Program
AFib	25AF001	Racial and Ethnic Differences in Geographic Access to Atrial Fibrillation Ablation in the United States: Get with the Guidelines-Atrial Fibrillation
AFib	25AF002	First Atrial Fibrillation Ablation in Patients Aged 75 Years and Older: Findings from GWTG-Afib Registry.
AFib	25GWTGDRASu1499353	Precision Equity in Atrial Fibrillation: Tackling Disparities in Rhythm Control and Quality of Care
AFib	25GWTGDRASu1502440	Neighborhood-Level Factors Influencing Oral Anticoagulation Use in Atrial Fibrillation: A Focus on Rural Trends
AFib	25GWTGDRASp1454037	Disparities in Atrial Fibrillation Treatment and Outcomes in Reproductive-Age Individuals
AFib	23AF002	Clinical and procedural characteristics of patients undergoing repeat catheter ablation for atrial fibrillation: A report from the GWTG-AFIB registry
AFib	23AF004	Atrial Fibrillation at First Sight: An Analysis of the Management of First Detection of Atrial Fibrillation and Opportunities for Care Improvement from the Get With the Guidelines-Atrial Fibrillation Registry
AFib	24AF001	Racial and Ethnic Differences in Catheter Ablation of Typical Atrial Flutter – Findings from the Get With The Guidelines® – Atrial Fibrillation Registry
AFib	24AF002	Association of Obesity with Rhythm Management and Clinical Outcomes in Newly Diagnosed Atrial Fibrillation
AFib	24AF003	Effectiveness and safety of catheter ablation in atrial fibrillation patients with heart failure and preserved ejection fraction
AFib	25GWTGDRASp1454070	Implications of climate and the environment for atrial fibrillation related hospitalizations
AFib	21AF002	The Use and Outcomes Associated with Periprocedural Imaging for Catheter Ablation of Atrial Fibrillation

Module	Project Number	Project Title
AFib	22AF001	Dofetilide Initiation in the Unites States – Is Everybody Getting With The Guidelines?
AFib	22AF002	Racial/Ethnic Differences in Outcomes of Ablation Versus Antiarrhythmic Drug Therapy for Atrial Fibrillation
AFib	23AF001	Temporal trends of catheter ablation use for atrial fibrillation among patients with heart failure with reduced ejection fraction by race-ethnicity before and after CASTLE-AF and CABANA trials New NDA sent to Procurement 3/3/25
AFib	23AF003	Temporal Trends in AFib Ablation Procedure Duration: Comparison of GWTG Insights with AMA RVS Update Committee (RUC) Survey Results
AFib	24GWTGDRA1339624	Identification of SODH for guideline-directed OAC prescription in AF patients without contraindications for OAC
CAD/ML	26CA001	Temperature-Triggered Myocardial Infarction: Phenomapping Individual Susceptibility with Spatiotemporal Analytics
CAD/ML	26CA002	Utilization of high-cost medical and mechanical interventions in patients admitted with myocardial infarction with public versus private helath insurance
CAD/ML	24CA008	Association Between Hospital Acquisition and Coronary Artery Disease Quality of Care
CAD/ML	25CA001	Effect of the eGFR 2021 CKD EPI Creatinine Equation on Kidney Disease Classification and Subsequent Coronary Angiography on Myocardial Infarction Patients (Version 2)
CAD/ML	25GWTGDRASp1454071	Short-term Air Pollutants and Acute Coronary Syndrome Onset in the United States
CAD/ML	24CA007	Long-Term Impact of Seasonal Temperature Variability on Myocardial Infarction
CAD/ML	25GWTGDRASp1454022	Statin use and LDL-C levels in patients with a history of CAD who are hospitalized for an acute coronary syndrome
CAD/ML	22CA002	Non-system delay of the coronary reperfusion processes and outcomes among patients presenting with ST elevation myocardial infarction in the Get-With-The-Guidelines Coronary Artery Disease registry
CAD/ML	23CA001	Door-in to Door-out time and in-hospital mortality in patients with ST-elevation myocardial infarction
CAD/ML	24CA001	Machine Learning-Based Models for Imputing Cardiac Arrest, Heart Failure, and Cardiogenic Shock in Large-Scale Clinical Registries.
CAD/ML	24CA002	Neighborhood Social Determinants of Health and Referral to Cardiac Rehabilitation: An Analysis of the Get With The Guidelines-Coronary Artery Disease Registry
CAD/ML	24CA003	Mortality Modeling Paper

Module	Project Number	Project Title
CAD/ML	24CA004	EMS transport of STEMI patients to non-cardiac catheterization lab hospitals: Characterizing frequency, regional variability, and associated outcomes
CAD/ML	24CA005	Optimal timing of pharmacoinvasive strategy and its impact on clinical outcomes in patients with STEMI: A real-world perspective.
CAD/ML	24CA009	Clinical Profile and Quality of Care Among American Indian and Alaska Native Patients with Coronary Artery Disease
CAD/ML	24GWTGDRA1308864	Social Determinants of Health in Risk Adjustment Modeling for Percutaneous Coronary Intervention
Cardiogenic Shock	26CS001	Influence of Time to Revascularization on Clinical Outcomes in Patients with Non-ST Segment Myocardial Infarction Complicated by Cardiogenic Shock
Cardiogenic Shock	26CS002	Baseline Anticoagulant Therapy: Implications for Management and Outcomes in Cardiogenic Shock
Cardiogenic Shock	26CS003	Effect of Early PAC Use on In-Hospital Mortality in Cardiogenic Shock – a GWTC® Study
Cardiogenic Shock	23CS001	Utility of the Pulse Pressure in the Prediction of Outcomes in Cardiogenic Shock
Cardiogenic Shock	23CS003	Association between insurance status and social living conditions with therapies and outcomes in cardiogenic shock
Cardiogenic Shock	24CS002	Sex-specific Outcomes and Complications in Patients with Cardiogenic Shock – An AHA Shock Registry Analysis
Cardiogenic Shock	25CS002	Hemodynamic Predictors of Mortality in Right Ventricular Cardiogenic Shock
Cardiogenic Shock	25CS003	Outcomes Associated with Early Initiation of Respiratory Support in AMI Cardiogenic Shock and HF Cardiogenic Shock: Does Time-to-Intubation Influence Survival by Shock Etiology?
Cardiogenic Shock	25CS006	Linkage of the Cardiogenic Shock Registry to comprehensive health claims of Medicare-insured patients.
Cardiogenic Shock	25CS009	Timing from Cardiogenic Shock Onset to Intensive Care Unit Admission: Predictors of Variability and Association with End-Organ Injury, Therapies and Outcomes
Cardiogenic Shock	25CS010	Machine Learning-based Risk Stratification in Cardiogenic Shock
Cardiogenic Shock	25CS005	Impact of Left Ventricular Unloading with Impella on Survival in CS Patients Supported with VA-ECMO: A retrospective Cohort Study
Cardiogenic Shock	24CS004	Predictors and Outcomes of Utilization of Revascularization Therapies and Mechanical Circulatory Support Among Elderly Patients Presenting with Acute Myocardial Infarction Complicated by Cardiogenic Shock

Module	Project Number	Project Title
Cardiogenic Shock	25CS004	Invasive Hemodynamic Predictors of CS Outcomes
Cardiogenic Shock	24CS003	Defining the Epidemiology, Current Management Practices, and Prognosis for Normotensive Cardiogenic Shock
Cardiogenic Shock	25CS001	Variation of Care and Timing of Cardiogenic Shock Teams
Cardiogenic Shock	24CS005	Utilization of Mechanical Circulatory Support and Descriptive Outcomes in Right Ventricular Failure Cardiogenic Shock
Heart Failure	24HF009	Utilization of ATTR-Specific and Heart Failure-Specific Therapies Before and After Hospitalization for ATTR Cardiomyopathy
Heart Failure	25HF012	GLP
Heart Failure	25HF009	Association between social vulnerability and HFpEF medication use and in-hospital outcomes
Heart Failure	25HF011	Sex Differences in Characteristics, Treatment, and Outcomes in Patients Hospitalized for HFpEF
Heart Failure	25GWTGDRASp1454023	Rural-urban differences of neighborhood-level social determinants of health factors with heart failure outcomes
Heart Failure	25GWTGDRASp1454054	Clinical Determinants of Resilience to Heart Failure: A Network and Machine Learning Approach
Heart Failure	25HF003	Relationship Between Multiple Levels of Dissimilarity and Vulnerability with Receipt of Heart Failure Care
Heart Failure	25HF005	Association Between Price and Outcomes in HF Hospitalization
Heart Failure	25HF007	Association Between Hospital Acquisition and Heart Failure Quality of Care
Heart Failure	23HF004	Factors Associated with Guideline Directed Medical Therapy Adherence and Non Adherence among Heart Failure Patients with Reduced Ejection Fraction.
Heart Failure	24GWTGDRA1308875	Environmental Exposures and Risk of Atrial Fibrillation Among Patients Hospitalized with Heart Failure: Insights from the AHA Get With The Guidelines-Heart Failure Registry (old: The Impact of the Exposome in Atrial Fibrillation with Heart Failure
Heart Failure	20HF002B	Medical Therapy and Residual Risk Among Patients Hospitalized for Heart Failure with Reduced Ejection Fraction (prior title-Residual Risk Despite Optimization of Guideline Directed Medical Therapy for Patients with Heart Failure with Reduced Ejection Fraction (Paper 2)
Heart Failure	21HF019	Trends in Equity and Quality of Care by Race and Ethnicity During the Coronavirus Pandemic (orig: Race/Ethnicity and Hospital Performance Related to Quality of Care: Findings from the GWTG-HF Program)
Heart Failure	22HF002	Characterizing low-natriuretic peptide heart failure phenotype in the GWTG-HF registry.

Module	Project Number	Project Title
Heart Failure	24GWTGDRA1308842	Social Vulnerability and Heart Failure Outcomes
Heart Failure	24GWTGDRA1308876	Social Determinants of Health and Risk Stratification in Heart Failure
Heart Failure	24GWTGDRA1308878	Machine Learning to Evaluate and Target Improvements in Heart Failure Hospital Care Equity
Heart Failure	24HF002	Sodium-glucose cotransporter 2 inhibitors effectiveness among patients hospitalized with heart failure with preserved ejection fraction
Heart Failure	24HF010	Outpatient Clinic Visits Before and After Hospitalization for ATTR Cardiomyopathy
Heart Failure	25GWTGDRASu1500804	Societal Determinants of Disparities in Guideline-Directed Medical Therapy for Heart Failure with Reduced EF
Heart Failure	25HF001	Use of Guideline-Directed Medical Therapy in Heart Failure with Mildly Reduced Ejection Fraction: A Comparative Analysis with Reduced and Preserved Ejection Fractions
Heart Failure	25HF004	Cardiovascular-Kidney-Metabolic Overlap in Patients Hospitalized for Heart Failure Across the Ejection Fraction Spectrum: Findings from Get With The Guidelines – Heart Failure
Heart Failure	25HF008	A Large Language Model -enabled Approach for Natural Language Querying Complex Clinical Data
Heart Failure	19HF013	Translating the Findings of the DELIVER Trial to Medicare Beneficiaries Hospitalized for HF in the US (OLD2: Translating DELIVER Trial Findings to Real World Clinical Practice)(OLD1: A Retrospective Observational Study of Burden of Illness among GWTG-HF patients with multiple readmissions (TRANSLATE-HF) - CMS Linked)
Heart Failure	20HF001	The influence of the time interval between previous admission and readmission can affect subsequent rehospitalization and subsequent mortality in heart failure with preserved, borderline and reduced ejection fraction
Heart Failure	20HF003	Median Survival Among Patients Hospitalized for Heart Failure with Reduced Ejection Fraction Prescribed Quadruple Medical Therapy
Heart Failure	23HF002	SGLT2i Effectiveness Among Patients Hospitalized for Heart Failure with Reduced Ejection Fraction
Heart Failure	24HF003	Association of Sex, Race, Hospital Characteristics, and Social Determinants of Health with Guideline-Directed Medical Therapy Utilization in patients with heart failure with reduced ejection fraction

Module	Project Number	Project Title
Heart Failure	24HF005	Get with the Guidelines Hospital Participation and its Impact on GDMT and HF Outcomes using an Interrupted Time Series Analysis (prior: The Association Between Participation in the Get With the Guidelines Heart Failure Registry and Changes in Use of Guideline-Directed Medical Therapy)
Heart Failure	25HF010	Health Care Cost Offset with Quadruple Guideline-Directed Medical Therapy After Hospitalization for HFrEF
Resus- ADULT	25RE(A)008	Time to ROSC as a Novel Outcome in Adult IHCA
Resus- ADULT	24GWTGDRA1308852	Relationship of Income, Income Disparity, and Insurance to Outcomes Following In-Hospital Cardiac Arrest
Resus- ADULT	24RE007	Intersectionality of Race/Ethnicity and Sex on Disparities in Patient Outcomes and Intra-Arrest Resuscitation Practices for In-Hospital Cardiac Arrest
Resus- ADULT	24RE009	Association between Hospital Acquisition and Resuscitation Quality of Care
Resus- ADULT	25GWTGDRASu1503461	Impact of ACA Medicaid Expansion on In-Hospital Cardiac Arrest Outcomes
